EXPERIENCE

Associate VFX Artist & Tech. Director, VR

New York City • February 2016 – 2019

- I founded and directed HBO's in-house virtual reality production operations including procuring 360 Audio suites & 360 stereo Video suites and wrote custom internal AR/VR software for post-production processing & and upgraded HBO's Manhattan production studios and audio mixing booths with hardware, software, workflows necessary for VR production;
- I established internal/external partnerships to promote technological growth and emerging production efficiency
- I lead teams to produce interactive and immersive experiences for Vive, Oculus, GearVR, and social platforms; produced/managed HBO's first in-house 360 stereoscopic VR promos & Programed/designed VR apps for Android platform using C, C++, C#, Python, Unity, Unreal Engine & more sophisticated custom engines where necessary.
- I explored volumetric and point cloud rendering solutions & developed creative logic-based design solutions by obtaining resources and recruiting necessary team players to execute collaborative team visions

NYU Tisch Meisner Studio, Open Arts Studio
Association of Writers & Writing Programs
Media Research Lab • Sigma Phi Epsilon

HELLO!

Nice to meet you! **My name is Mike.** I have an accredited degree from NYU in Virtual Reality/Augmented Reality, Magic & Production. I help visionaries like HBO bring to light their deepest desires for wonder. You can Google "**mike sadowitz tedx**" for a demonstration of wonderment from when I was hired to open TEDx Lincoln Square's "Looking Beyond" event. I love VR/AR & I write code in C, C#, C++, JS, CUDA & more.

SKILLS

AVID	Autopano	Autodesk
